

Elixir Supreme NPK 12:12:17 is a complete fertilizer that provides essential nutrients for healthy plant growth and better yields.

- High Potassium (17%), Mg, and SOP-Sulphur drive heavy flower production and fruit fill.
- Premium SOP blend safe for salt-sensitive fruits and flowering crops.
- Quick-dissolving granules allow rapid absorption via surface application or irrigation.

NPK 15:15:15 + 12% S is a complete fertilizer providing essential nutrients for healthy crop growth.

- Equal NPK ratio provides continuous, reliable nourishment from planting through harvest.
- Every granule holds identical nutrients, eliminating hot spots and under-fed areas.
- Applies directly to soil or dissolves into irrigation water without delay.

NPK 6:24:12 + 2% Ca + 5% S + 0.05% Zn is a complete fertilizer providing essential nutrients for healthy crop growth.

- High phosphorus drives rapid root development and strong seedling setup.
- Every granule contains all NPK+ nutrients for completely even field distribution.
- Dissolves instantly on the surface or in irrigation water for immediate root uptake.

Calcium

PK 20:30 + 6% Ca is a fertilizer that provides high levels of phosphorus (P) and potassium (K), along with 6% calcium (Ca).

- N-free, high PK formula expands fruit size, improves firmness, and boosts overall yield.
- 6% Calcium strengthens cell walls to prevent fruit cracking and extend shelf life.
- Dissolves quickly all at once—ideal for surface feeding or fertigation during sizing.

NPK 7:21:21 + 4% S + 0.05% Zn is a complete fertilizer providing essential nutrients for healthy crop growth.

- Elevated P & K transition crops smoothly from early growth to heavy bloom and fruit set.
- Homogenous granules ensure uniform Sulphur and Zinc distribution to every plant.
- Dissolves rapidly with moisture or irrigation for instant access during critical transitions.
